About Us

At A-C-D we specialise in structural and architectural draughting services and offer the highest quality of professional and accurate drawings to our clients utilising the latest 3D Tekla Structures software packages.

Based in the West Midlands and with over 20 years experience in the industry, we have worked with companies throughout the UK and Ireland to produce projects of varying size and complexity.

We take a proactive and tailored approach to achieve our clients needs and expectations, and offer our services as an external drawing office or as an addition to your in-house design team.

If you would like further information on the services provided or would like to discuss contract quotations please speak to Andrew Curran on the contact details above.
