

MIDLAND STRUCTURAL SERVICES LTD

A COMPLETE STRUCTURAL SERVICE TO THE CONSTRUCTION INDUSTRY

Midland Structural Services provide specific, bespoke steel detailing and design services for structural steelwork. Established since 1989 we have a vast experience of structural steelwork.

Using Tekla Structures, we can undertake projects of all shapes and sizes, having completed contracts ranging from 5 to 5000 tonnes. Our services can vary from fabrication drawings only to a fully managed complete service involving liaison with client, site surveys, connection designs, general arrangements, automated lists, erection drawings and as built's.

*"Whatever your requirements,
we can tailor our services to suit your needs!"*
