

R.C.D.S Reinforced Concrete Detailing Services

We provide a reinforced concrete detailing service using Tekla Structures 3d modelling software for both the Pre-cast and In-situ concrete industries

Our detailing service covers

- Preliminary design concept drawings and models
 - General Arrangement drawings
 - Production mould drawings
- Production reinforcement drawings
 - Reinforcement schedules
 - Project management
 - Project reports

Columns, Beams, Cladding, Wall panels, Sandwich panels, Slabs ,Foundations, Stairs

We provide a tailored service that meets the needs of the smallest projects to the most demanding of contracts
We can provide an additional resource to your existing drawing office or act as your drawing office,
thereby reducing your overheads (staff, training, hardware, software, maintenance, etc.)
