- SSF Ltd provides a sub-contract Structural Steelwork detailing service to the steelwork fabricator using the latest Tekla Structures 3D Modelling Software.
- The service can be tailored to suit your needs and incorporate any existing system for data transfers.
- Technical expertise and flexibility with extensive knowledge and over 11 years' experience in the structural steel detailing industry both in the UK and globally.
- Reputation is built on quality of service with clash free modelling providing highest standard of drawings on time and within budget. Design changes are responded to effectively and efficiently to reduce any impact on program and cost.
- Based 5 minutes away from the M62 motorway network between Manchester and Leeds.
- Please feel free to contact SFF Ltd to discuss any of your projects and current capacity.
