Scope

This document provides additional information to what is presented in the **Tekla Trust Center**.

The scope of the information is the Tekla Discussion Forum service which is part of Tekla Online Service portfolio.

Tekla Discussion Forum overview

The Tekla Discussion Forum is a community service where users of Tekla products can discuss product-specific topics, learn from each other and get support from peers and local support staff.

On the Tekla Discussion Forum, developers who are creating add-on tools using the product-specific Open APIs can talk to other developers and discuss development related topics.

Discussions on the Tekla Discussion Forum are followed, supported and moderated by support personnel. Community users can start new topics, reply to and participate in ongoing discussions. Users are able to upload and share attachments as a part of the topics they post in the service. Access to the Tekla Discussion Forum is based on valid product-specific maintenance/subscription agreements.

Tekla Discussion Forum related services

Tekla Discussion Forum uses the following services:

Tekla Account service (ATC) contains Tekla Online profiles which users create when they first sign in to Tekla Online services. In addition to the user profile information, Tekla Account service contains user's company (e.g. organization), online licenses and access rights, and authorization to the use of the Tekla Online services.

Trimble Identity service (TID, TIDv4) is an identity service provider for Trimble products, including Tekla products and services. It provides single sign-in and authentication to the services. Trimble Identity is ISO 27001 certified.

Tekla Online Admin Tool is a service for organization administrators to manage and control their users and licenses of their organization.

Tekla Discussion Forum security

The Tekla Discussion Forum is covered by the security measures and processes described in the Tekla Trust Center. Service specific details are described in this chapter.

Cloud security

Tekla Discussion Forum is operating on Amazon AWS platform. We ensure infrastructure security and high availability of our cloud solution by implementing e.g. following measures to the infrastructure: hardened Linux hosts with automatic patching, isolated VPC, Role-based access control and security groups, and 24x7 SOC Team monitoring alerts. Solutions are architected for resilience and high availability and have AWS Shield and AWS WAF Protection.

General information on AWS security can be found in AWS Whitepapers & Guides

Personal Data in Tekla Discussion Forum

Personal data

The Tekla Online profile and Tekla Discussion Forum contain personal data of users.

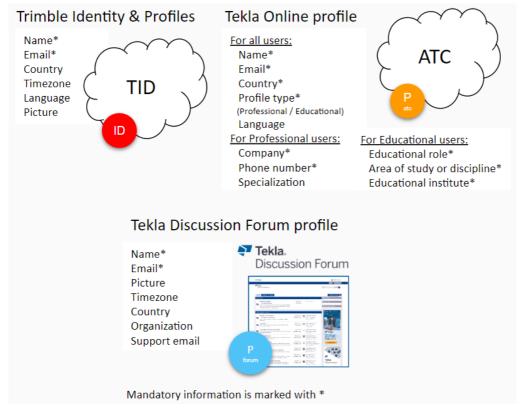

Image 1. Personal data in Tekla Discussion Forum and related services

Upon creating a new Tekla Online profile, the user provides mandatory personal data (such as name and email) and agrees to the <u>Terms of Services</u>.

When signing in to the Tekla Discussion Forum, the Tekla Online profile data, user's organization and related data such as user's access rights are synchronized to the Tekla Discussion Forum profile.

Access to personal data

Access to personal information in Tekla Discussion Forum is restricted to service administrators, forum moderators and support personnel only. Users in the Tekla Discussion Forum can see each others' names as well as other data the user wants to publish.

We process and protect all personal data according to the descriptions in the Privacy Notice.

Tekla Discussion Forum data center geographical location

We use the Amazon Web Services (AWS) global cloud infrastructure, which is available within 26 geographic regions around the world.

The AWS infrastructure is designed to deliver a flexible, reliable, scalable, and secure cloud computing environment with a high quality global network performance.

Data center locations of the services are:

Service	Location	Service provider and region
Tekla Discussion Forum	Ireland	AWS Europe (Ireland)
Tekla Online profile	Ireland	AWS Europe (Ireland)
Tekla Online Admin Tool	Ireland	AWS Europe (Ireland)
Trimble Identity service	US	AWS US (Oregon)

Contact Information

If you have any questions or need more information, please don't hesitate to contact your local Tekla support.
