HRD claimable course
program no.
10001263947

This instructor-led online BIM-based training course is open for Tekla Structures users in Malaysia only.

This course will be conducted in English.

The program is designed for experienced Tekla Structures users, who would like to upskill and master Tekla Structures to advanced level, in modifying default settings of Tekla Structures to suit specific project needs.

Course information

This program trains learners with skill-sets in customizing Tekla Structures.

This online course takes four full days to complete.

On completion of this course, trainees are expected to master the customized settings to Tekla Structures:

- setting related to company and project specific requirements
- adding of custom made connection libraries and profiles
- create additional report and drawing templates
- modification to drawing layout and property settings
